BIGGER WATER MAIN FOR WATER STREET

Better water supply and better fire protection for one important section of the city is to be attained by new water pipes that the city water department is to lay in Water street along with the street improvement that is to be carried on by the street department. The street work will not be begun till after the county fair week, although the water department has already got a start on their part of the improvement by putting in a 12 inch T in Washington square to connect with the 16 inch pipe line from the Stony Brook reservoir.

A 12 inch water pipe is to be laid in Water street from Washington square easterly to the point where the block paving in the street ends about at the junction of Commerce and Water streets. This large pipe will replace a 6 inch water supply addition to the volume of water for fire purposes in this part of the city where some of the most important business property is located. The supply for the 12 inch pipe will be abundant as it will connect directly with the 16 inch main from Stony Brook.

From the point in Water street where the new 12 inch pipe will end there will remain the old 6 inch pipe easterly to Market street, this being under the block paving. Later on when the street department takes up the work of improving Water street from Market to Shetucket street, the water department will put in a 12 inch main there to replace the 6 inch water main now in the street. When this work has been finished it will leave only the central section of Water street with the old 6 inch pipe.

As soon as possible after the traffic of fair week is out of the way the street department is to start the work of improving Water street from Washington square easterly to the end of the block paving. At a later time the other end of the street will be taken up for improvement. Both sections are badly in need of it. It has not yet been definitely decided just what kind of street will be laid for this improvement.

JEWETT CITY DRIVER

LES FOR \$1,500 DAMAGES
Mike Wozniak of Griswold, who was driving a grocery and meat wagon on North Main street in Jewett City on June 30, 1920, when the wagon was run into by an automobile, has brought suit against Charles D. Wolfe of Lisbon for \$1,500 damages on account of the accident. It is claimed that the automobile was driven by Mr. Wolfe's representative, servant or agent.

Wozniak claims, in the papers filed in the suit, that he had driven his wagon to the right hand side of the road to allow the automobile to pass him from the rear when the accident happened because of the dangerous speed at which the automobile was operated.

When the automobile struck the wagon the horse ran away for about a quarter of a mile till in front of the home of E. M. Anthony it collided with a large heavily loaded truck. In this collision Wozniak was thrown against the truck and badly injured about the back, arms, legs, and face. Because of these injuries and the soreness and lameness of his arms and back resulting from pulling on the reins in the runaway he was in a hospital for thirteen days and thereafter was confined to his home for four weeks. Wozniak was unable to work for five weeks and three days at his regular occupation of clerk and butcher at which he earned \$27.54 per week, his total loss of wages being \$157.47.

The suit is returnable before the superior court on the first Tuesday in September.

AFTER SEVERE SICKNESS

How Many People in This City Have Recovered Strength?

There is one great drawback to recovery for a person who has been sick, and that is poor revitalized blood and consequent weakness, nervousness and depleted strength. If people in this city, who have been ill and are still in a weakened condition could only realize the value of Vinol to enrich the blood, create a hearty appetite and restore strength, druggists would not be able to supply the demand.

For all run-down, nervous, anemic conditions, and for delicate children and feeble old people, there is no other remedy like Vinol.

STORES NEEDS DORMITORY

FOR ITS WOMEN STUDENTS
Col. William Henry Hall of South Willington, member of the legislature and a trustee of the Connecticut Agricultural college at Storrs, has announced that he will ask the legislature when it convenes next month to grant an appropriation to the trustees for the purpose of erecting a young women's dormitory. He claims that there will be an enrollment of at least 100 girls this fall and that there is no accommodations available for them. The wooden dormitory was burned some months ago at a time after the legislature had adjourned and because of a lack of funds the trustees have been unable to replace this structure.

There was some insurance on the building that was burned but nowhere near enough to warrant the erection of the structure without extra appropriation.

POETRY

MY THOUGHTS.
I took my thoughts up to the roof
All on a summer morning
The sun from out its blue abode
The meadows was adorning
My thoughts were a sorry pack;
They clung like cats upon my back.

And there was doubt, a dubious thing,
And there was foolish fretting;
And there was restless waiting
And there was restless fretting.
A grievous need to hear alone
When all the air was filled with song.

Then came I to the wide free crest
With night and sky above me;
A soothing wind my cheek caressed;
Methought it seemed of love me
And there breathed upward from the earth
The fragrant messages of mirth.

And seeing far below me roll
The lands so green and spacious,
My troubles lifted from my soul
And life again grew gracious.
And so I trod the downward road
Without a trouble for a load!

—Clifton Scollard, in New York Sun and Herald.

THE GARDEN OF SLEEP.

On the grass of the cliff, at the edge of the steep.
God created a Garden, a Garden of Sleep!
'Neath the blue of the sky, in the green
It is there that the regal red poppies are born!

Brief city of desire, and long dreams of delight.
They are mine when my Poppy Land
O heart of my heart! Where the poppies are born.

I am waiting for thee, in the hush of the dawn.
In my Garden of Sleep, where red poppies are spread,
I wait for the living alone with the dead.

For a tower in ruins stands guard o'er the deep.
At what time feet are green graves of fear
Did they love as I love, when they lived by the sea?

Did they wait as I wait for the days that may be?
O, life of my life! On the cliffs by the sea.
By the graves in the grass I am waiting—
—Clement Scott, in Charleston (S. C.) News.
